Beeworks Games presents "Hungry Mogumon", first free application for iPhone/iPod touch

You and Mogumon's slow gourmet life starts now!

Tokyo--(Beeworks Games)--Beeworks Games is going to release first free application for iPhone/ iPod touch, “Gourmet Creature Hungry Mogumon”.

Story starts from the moment when you are entrusted one mysterious egg by one mysterious person. That is gourmet living thing, Mogumon. Mogumon is a living thing who LOVE yummy foods. Feed yummy foods to breed Mogumon. Let Mogumon go on trip to find food material and sell them for money. Then feed them, grow them, then grow some more!

Mogumon’s attraction

- You are able to enjoy many of Japanese style food in the game.
- It will feel like a trip to Japan comes out menu of a typical Japanese restaurant.
- Graphics are cute that you won't get tired of seeing them everyday.
- Up to 30 kinds of Mogumon and 70 kinds of food. Be addiction to complete!
